

Bootstrap

Progress Bar :-

- A progress bar shows task completion visually in percentage.
- Use progress as the container and progress-bar for the indicator.
- The width (e.g., style="width:50%") sets the progress level.
- Variations include colors (bg-success, bg-danger), striped, animated, and stacked bars.

- The progress bar shows how far a user is in a process.

```
<div class="progress">
  <div class="progress-bar progress-bar-success" role="progressbar" aria-valuenow="50"
    aria-valuemin="0" aria-valuemax="100" style="width:50%">
    50% Complete (success)
  </div>
</div>
```

Animated Progress Bar :-

- An animated progress bar shows moving stripes to indicate an active process.
- It is created using progress-bar-striped along with progress-bar-animated classes.
- The style="width:%" attribute controls the progress percentage.
- Colors can be applied using classes like bg-success, bg-danger, etc.

- Use class **.active** to create animated progress bar.

```
<div class="progress">
  <div class="progress-bar progress-bar-striped active" role="progressbar"
    aria-valuenow="70" aria-valuemin="0" aria-valuemax="100" style="width:70%">
    70%
  </div>
</div>
```

Example -

```
<div class="progress">
  <div class="progress-bar bg-danger progress-bar-striped progress-bar-animated"
style="width: 50%;"></div>
</div>
```

Output –

Navigation Bar :-

- A navbar in Bootstrap is a responsive header for navigation links, logo, or menus.
- Use the class navbar to create a navigation bar.
- navbar-expand - makes it expand on larger screens and collapse on smaller ones.
- Color themes are set using navbar-dark bg-dark or navbar-light bg-light.
- navbar-brand is used for the website name or logo.
- nav-item and nav-link define the menu items and links.
- navbar-toggler with collapse navbar-collapse makes it mobile-friendly.
- Alignment is done with ms-auto (right) or me-auto (left).
- You can add dropdowns and make the navbar fixed-top, fixed-bottom, or sticky-top

Example –

```
<style>
  a{
    color: white;
    text-decoration: none;
  }
</style>

<nav class="navbar navbar-expand-sm bg-dark">
  <article class="container-fluid">
    <a href=""><i class="fa-solid fa-house"></i>Home</a>
    <a href=""><i class="fa-solid fa-earth-america"></i>About</a>
    <a href=""><i class="fa-solid fa-images"></i>Images</a>
```

```
<a href=""><i class="fa-solid fa-phone"></i>Contact</a>
<a href=""><i class="fa-solid fa-circle-info"></i>More Info</a>
<a href=""><i class="fa-solid fa-user"></i>Login</a>
<a href=""><i class="fa-solid fa-graduation-cap"></i>Graduation</a>
</article>
</nav>
```
